ABOUT ME

I am a passionate and detail-oriented B.Tech undergraduate in Computer Science and Engineering with specializing on Data Science. I have a strong foundation in **Programming, Algorithms, Machine learning and Data structures**, along with hands-on experience in web development and Python-based tools. I enjoy solving real-world problems using data-driven approaches and continuously seek to learn and grow in the field of AI and Data Science. I am eager to contribute to innovative projects and gain practical experience through internships and collaborative opportunities.
