

PRANAY KUMAR

Software Engineer · Data Science · Web Development

(+91) 9376457792 | Ghaziabad, UP | mrpranaykr26@gmail.com

Portfolio | LinkedIn | GitHub | LeetCode | HackerRank | GeeksforGeeks

PROFESSIONAL SUMMARY

B.Tech Computer Science (Data Science) undergraduate with hands-on experience in Machine Learning, Data Analytics, React.js development, and web deployment. Experienced in building end-to-end ML projects, data-driven applications, and responsive web solutions. Strong foundation in Data Structures & Algorithms with active problem-solving practice across coding platforms.

TECHNICAL SKILLS

Languages	Python, C, C++, JavaScript
Web Technologies	HTML, CSS, React.js
AI / ML	Machine Learning, Deep Learning, Generative AI, Scikit-learn, Model Development
Data	Pandas, NumPy, Matplotlib, Seaborn, Data Visualization, Feature Engineering
Databases	MongoDB, MySQL, SQL
Tools	Git, GitHub, VS Code, PyCharm, Jupyter Notebook, IntelliJ IDEA
Soft Skills	Communication, People Management, Rapport Building

WORK EXPERIENCE

Web Development Intern — **AG Enterprises** Jul 2025 – Present

- Developed and deployed a responsive solar company website using React.js and JavaScript.
- Managed domain configuration, DNS setup, hosting, and deployment through GoDaddy and Namecheap.
- Optimized website performance, security settings, and ongoing maintenance workflows.

Lead Operations Member — **Taste Garden Kitchens** Jun 2025 – Present

- Managed POS operations, menu updates, pricing, and sales reporting.
- Maintained Google Business Profile and coordinated platform integrations with Swiggy and Zomato.

PROJECTS

Bangalore House Price Prediction [Deploy](#) | [Source Code](#) 2026

- Developed an end-to-end ML regression model (Linear Regression, Lasso, Decision Tree) with cross-validation.
- Performed feature engineering, outlier removal, and exploratory data analysis on a real-world Bangalore housing dataset.

Heart Stroke Prediction [Deploy](#) | [Source Code](#) 2025

- Built a classification model to predict stroke risk; handled class imbalance and hyperparameter tuning.
- Conducted data visualisation and correlation analysis using Matplotlib and Seaborn.

AG Enterprises Website [Deploy](#) | [Source Code](#) 2025

- Developed a multi-page solar company site (Home, About, Gallery, Cart) with WhatsApp integration.
- Deployed on GitHub Pages with domain registration and DNS configuration via GoDaddy and Namecheap.

EDUCATION

B.Tech – Computer Science & Engineering (Data Science) 2023 – 2027

KCC Institute of Technology & Management, Dr. A.P.J. Abdul Kalam Technical University | **SGPA: 7.5**

CERTIFICATIONS & ACHIEVEMENTS

- Full Stack Development — Softpro India Computer Technologies
- GenAI Powered Data Analytics — TATA (Forage)
- Data Analytics — Deloitte (Forage)
- UP Skill — Roadmap to Professional Engineering
- Participated in 2 Hackathons
- College Code Program Volunteer
